

Associate an Additional Remote Control to a Powerlouvre™ Window or Remote Receiver Unit

Call 1800 777 758 for further assistance.

Please have both your existing Remote Control (already associated with the Powerlouvre™ Window) and your new Remote Control (unassociated) at hand and read through the entire instructions before you begin.

1. Prime the Existing Remote Control

Turn the existing Remote Control over, you will notice a small hole about half way down on the right (figure one).

Insert a thin, stiff object (a straightened paperclip is ideal for this purpose) and push down on the button for 1 second.

Figure 1.

2. Match the New Remote Control

Within two seconds of completing Step One press the OPEN button on the New Remote Control (figure two).

If you were unable to complete Step Two within 5 seconds of Step One, repeat Step One and Step Two again. The New Remote Control is now associated identically to the existing Remote Control.
