

<p style="text-align: center;">Breezway Louvre Windows Frequently Asked Questions</p>
--

Q1. Are the louvres made by an established company?

Breezway has been manufacturing louvre windows for well over 50 years.

Q2. Is the manufacturer a member of relevant industry bodies?

Membership of professional bodies is a good indication of whether or not a manufacturer is abiding by industry codes of practice and staying abreast of industry issues. Breezway is a member of many professional bodies including the Australian Window Association, Window Energy Rating Scheme, Window Association of New Zealand among others. Please read the 'About Breezway' page for a complete list.

Q3. Is a reasonable warranty offered on the windows?

Breezway offers a 7 year warranty on Altair™ Louvre Windows (1 year for moving parts).

Q4. Where are they manufactured?

Breezway Louvre Windows are manufactured in Australia, Malaysia and Hawaii to Australian and International standards.

Q5. Do they meet relevant Building Code standards?

All Altair™ Louvre Windows are manufactured to the relevant Building Code Standards and test results are available to support our Product Performance Warranty. Please visit the 'Technical' page for more information on our Product Performance Warranty.

Q6. Will they fit into my home's colour scheme?

Altair™ Louvre Windows offer 26 standard aluminium colours to which plastic clips and handles can be colour matched.

Q7. Can the louvre windows be customised to meet my needs?

Altair™ Louvre Windows offer the widest choice of customising options. Height, width, colours, handle types, handle positions, blade sizes, blade materials and security are some of the features that can be customised.

Q8. Do they feature market leading design and technology?

From the award-winning design of the Altair Powerlouvre™ Window through to small details like clips that interlock and form a smooth surface when closed for cleaner lines and easier cleaning, Altair™ Louvre Windows offer class-leading design. Altair™ Louvre Windows also feature leading technology, like the internationally patented 'living hinge' design that pulls clips tightly against the sides of the window when closed to ensure tight sealing. The Altair™ Louvre Window is a leader, not an imitator.
