

Remote Control Powerlouvre Configuration Example

Project Name	Noosa Villa	
Location	12 Noosa Road	
	Noosa	
	QLD	
Complete Project Total Units		
Windows	Standard Remote Controls	Advanced Remote Controls
10	2	4

Configured By: Bob Jones

Company: Paradise Windows & Doors

Account Name: Para01

Position: Owner

Sign: (Bob's signature here)

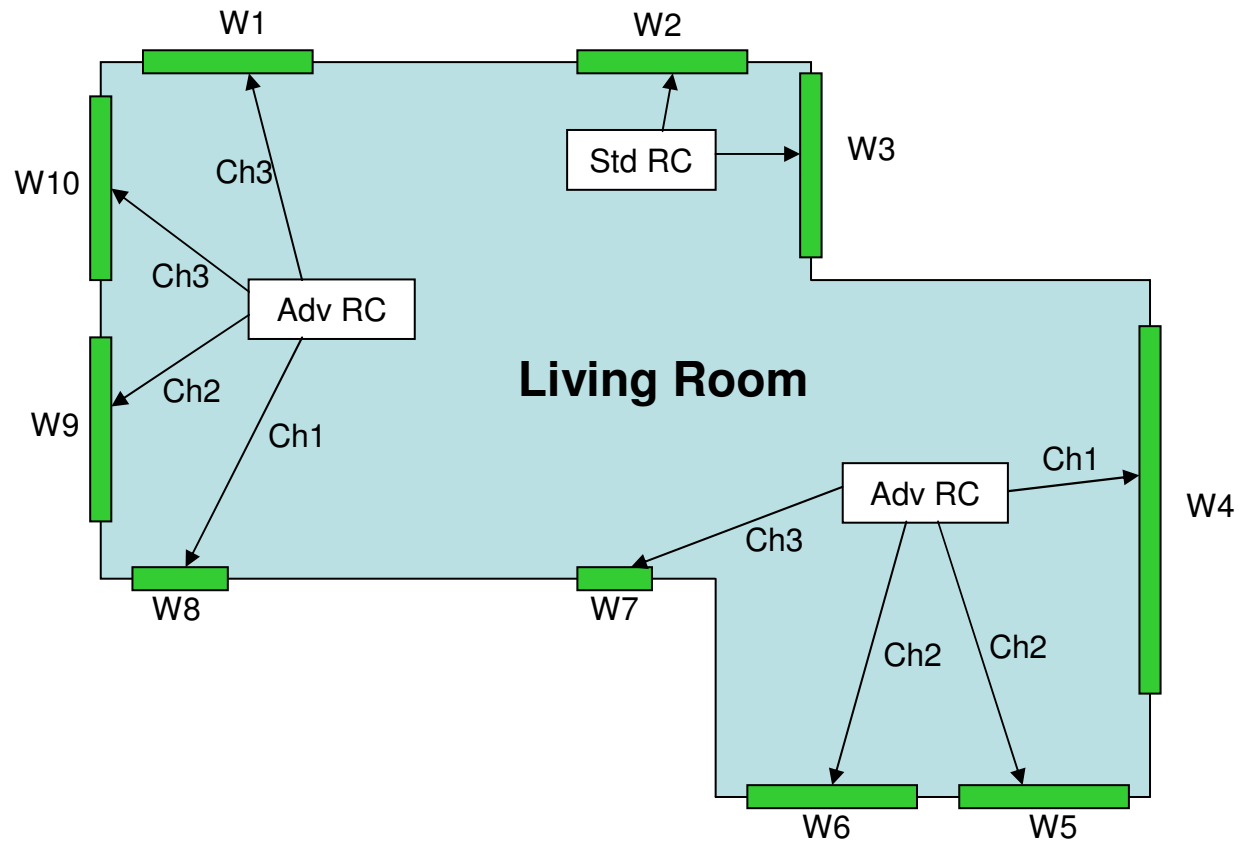

Date: 22 October 2009

Breezway Rep: Paul Nelson

Configuration Example

Floor plans showing windows and all remote control accessories are to be attached or sketched below.

Spare remote controls are required.

Configuration Example

Room/House: 1.			
Window No 1.	Controlled By:		
	Standard Remote Control <small>(Controls multiple windows simultaneously)</small>	Advanced Remote Control <small>(Control up to 6 groups of windows independantly)</small>	
		Remote	Channel
	2.	2.	3.

Notes:

1. Rooms/house should be named and windows numbered as per the building plans.
2. Remote Controls are to be identified using alphabetical letters. Each additional remote control should be assigned a new letter. The same letter should not be used more than once per building.
3. Advanced Remote Control channels should be numbered 1-6. If 5 or less groupings of windows are associated with an Advanced Remote Control, the 6th channel will control all windows associated with the Advanced Remote Control simultaneously.
4. Breezway recommends ordering spare remote controls. In the event of the normally used remote control being lost, the spare remote control can be used to operate the windows and also makes associating replacement remote controls significantly easier. Place a "Y" in this box to order spare remote controls.

Spare Remote Controls required for this room?
