

# Fakro Access Ladders

by Breezway

Great for providing safe, easy access to the roof void when:

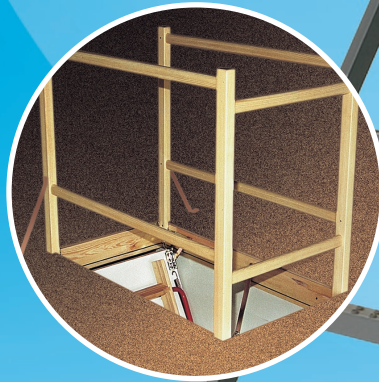

- storing light-weight items;
- accessing roof space for maintenance; or
- converting empty roof space into an attic living area.

**QUICK  
and  
EASY to  
install**

- Internal application – so you can install all year round.
- Local stock holding and technical support available.
- Quality product at value-for-money prices.

## NEW PRODUCTS now available

- LWM Metal Access Ladder with a high load rating of 200kgs.
- LXB Bannister Kit assists climbing in and out of the roof void and acts as a safeguard around the perimeter of the ladder when working in the roof.

- Spring-hinged, thermally insulated trapdoor with tight sealing.
- Anti-slip treads for confident climbing.

Also  
available in  
**QUALITY  
NORDIC PINE  
WOOD**
