

# New Fakro Venetian and Blockout Roller Blinds are now available to suit Fakro Skylights

Features	Benefits
<b>Venetian Blinds:</b>	
Available in white	..... Great for adding comfort to your home that combines a decorative appearance, functionality and privacy from overhead.
Blinds pivot open and closed	..... Provides protection from sunlight and allows the homeowner to control the direction of light entering a room.
Manual or electric operation	..... Manually operated with a telescopic control rod or electrically with wall switch or remote control.
Suit fixed or opening Fakro Skylights	..... Available for the full range of Fakro Skylights depending on the individual application within the home or office.
<b>Blockout Roller Blinds:</b>	
Available in beige or light beige	..... 100% polyester designed to match most home or office building interior designs and provides privacy from overhead.
Blinds roll completely up or down	..... 63% light reflectance, 37% light absorption and zero light transmittance which provides maximum protection from sunlight to reduce fading and heat gain within the home.
Manual operation	..... Telescopic control rod operates blockout blind in 'out-of-reach' situations.
Suit fixed Fakro Skylights	..... Ideal for fixed skylight applications where ventilation is not required within the home or office.

## Impact on other Skylight Products

- All blinds come in 8 different sizes designed to suit fixed, manual and electric opening Fakro skylight models.
- Blockout roller blind for Fakro opening skylights will be available early 2009.

## Customer's Business Impact

- Warranty has been updated to include blinds:
  - 3 years for manual blinds and
  - 2 years for all electrical components.
- Improved ability to meet customer needs to enhance the aesthetics of a living room or simply provide the privacy or control of light required.

Code	Product Description	Price (includes GST)
