

Breezway CPD Tutorial

Ventilation

This tutorial will explain the scientific benefits of ventilation and will then take you through a thorough presentation of the impact on ventilation of different window types. A modelled energy efficiency study will then be discussed followed by a briefing on the WERS ratings for screened windows.

LEARNING OUTCOMES:

- Identify four of the scientifically proven benefits of ventilation
- Describe the impact of window types and sizes on ventilation openings
- Describe the results of a study on the relative energy efficiency implications of air infiltration and ventilation
- Be aware of WERS ratings for screened products

FORMAL CPD POINTS OFFERED:

1 Hour Presentation = 1 Formal CPD Point
