Windows is now
available to offer
increased strength
and safety.

Suitable for multi-story buildings and residential too!

**Don't try
this at
home!**

breezway®
A JELD-WEN Company

The pin secures the blade to the clip from inside.

The Stronghold™ System

Altair Louver Windows with the Stronghold System give increased design flexibility. In multi-story applications or a lanai enclosure, extra living space can be created to ensure fresh trade winds are captured and enjoyed all year round.

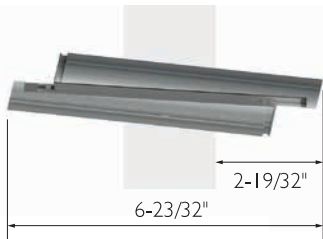

Altair Louvers with the Stronghold System will withstand even the harshest weather conditions, making them a perfect alternative to shutters. The Window System can also be screened and offers privacy options when using aluminum blades.

Please Note: The Stronghold System is a window, not a balustrading system.

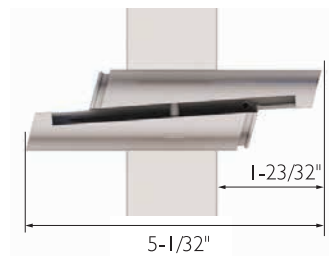

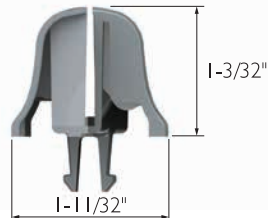

- Available only within the Breezway ios® or Makani™ Window Systems complete with tempered glass or aluminum blades.
- Current finish options apply.
- Suitable for all handle types or as an Altair Powerlouver™ Window System.
- Available for use with 1/4" thick, 4" or 6" drilled glass or aluminum blades.
 - Glass blades must be processed and tempered for use with the Stronghold System.

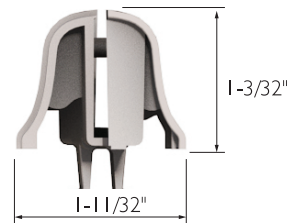

Stronghold™ Clip Dimensions

Altair® Stronghold 6" Clip

Altair® Stronghold 4" Clip

Standard Heights

The standard heights of Breezway Window Systems with Altair Stronghold Louvers are identical to the standard heights of Breezway Window Systems with regular Altair Louvers. Please see the Breezway website for a copy of the Altair Louver standard height chart.

Window Size Constraints

Please refer to the Altair Product Performance Warranty in the Breezway Design Manual for size constraints.

Installation & Maintenance

Stronghold is only available from approved Breezway Dealers. Windows must be installed square, plumb and true due to the precision of Stronghold. In addition, the Stronghold pin cannot be removed without causing damage. It is important to take actions to prevent the need to remove blades after pin installation.

Warranty

Warranted up to 7 years.

Pricing

Please contact your Breezway Preferred Dealer for pricing.

Key Summary

- Altair Louvers with the Stronghold System locks louver blades in place and provides extra strength when blades are in the open position.
- Ideal for second story buildings or higher to gain the benefits of full ventilation and safety from the strong blade retention.
- Pins are color matched to the clip and are made from high strength acetal.
